The “Safe 4 the Right Reasons” message is the foundation to build a positive safety culture.

Safe 4 the Right Reasons: For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

“The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to ZERO!”

HYDRATION CRASH COURSE

THE PROBLEM

Dehydration occurs when the body uses or loses more fluid than it takes in, and lacks the amount needed to function normally, leading to:

- ▶ **Anxiety**
- ▶ **Fatigue**
- ▶ **Memory Loss**
- ▶ **Impaired Motor Skills**
- ▶ **Mood Swings**
- ▶ **Dizziness**

and more

Heat Stress is a condition that happens when the body cannot maintain its internal temperature of 98.6 degrees Fahrenheit. Some signs include:

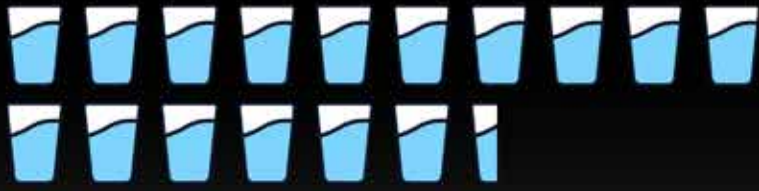

- ▶ **Irritability**
- ▶ **Confusion**
- ▶ **Hallucinations**
- ▶ **Nausea**
- ▶ **Physical Weakness**

and more!

THE SOLUTION

Suggested Daily Water Intake Levels

15.5 Cups per Day
for Men

11.5 Cups per Day
for Women

Electrolytes allow your body to function by keeping the necessary currents of electricity flowing. Electrolytes are chemicals that conduct electricity when dissolved in water. Some common examples of electrolytes are listed here.

The National Institute of Health recommends consuming Electrolytes every 15 to 20 minutes of exercise.

Zanfel® Poison Ivy Wash, Individual Use Packet, 1/8 oz.

Zanfel® Poison Ivy, Oak & Sumac Wash is a safe and effective topical solution for poison ivy, oak, and sumac. It is the only product clinically shown to remove urushiol, the toxin responsible for the reaction, from the skin ANYTIME after outbreak, enabling the affected area to immediately begin healing. After using Zanfel, itching and pain are the first things to be relieved, usually within 30 seconds.

- Removes urushiol by binding with it to create an aggregated cluster, which can quickly and effectively be washed away with water
- Zanfel can be used at any time after exposure
- Can be applied on any external body area, and is safe for use by children and pregnant or nursing women
- In the case of systemic, or blood-based reactions, prescription steroids are usually required. If you suspect a systemic reaction, see your healthcare provider immediately
- Zanfel can be used in conjunction with steroid treatments

- Designed with a single spout for filling and pouring
- Sealed lid features automatic positive-pressure relief that vents between 3 and 5 psig (0.2 and 0.35 bar) to guard against rupture or explosion
- Made from high-grade coated steel, each can is tested to guarantee 100% leakproof construction
- Tough powder-coat finish resists chemicals and stands up to demands of rigorous use
- Equipped with a stainless steel flame arrester which dissipates heat to stop flashback ignition
- Cans up to 1 quart (1L) feature a trigger-release handle, while larger capacities have a swinging handle to greatly ease carrying of heavier loads
- Large rounded bowl provides protection from splashing and spillage
- Durable construction holds up to heavy use
- Use a Type I safety can funnel to pour into smaller openings
- This polypropylene funnel attaches to the spout neck of Type I Safety cans that are sized 1-gallon (4L) and larger. The two-position funnel folds down for when you fill or store the can, and stays up for when you pour

SAFE

the Right
Reasons

Who Are You Safe 4?

The “Safe 4 the Right Reasons” message is the foundation to build a positive safety culture.

Safe 4 the Right Reasons: For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to **ZERO!**

This is the best thing this company has ever done for its employees! I don't need a lunch or a coffee cup – I need to take care of my family, my 4

Safe 4 the Right Reasons cuts to the real deal. I have worked at a bunch of places but this company just showed they care about us and our families.

For more information on bringing the **Safe 4 the Right Reasons** message to your employees contact **Jill Miller!**
