Who Are You Safe 4?

The “Safe 4 the Right Reasons” message is the foundation to build a positive safety culture.

Safe 4 the Right Reasons: For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

“The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to ZERO!”

For more information on bringing the **Safe 4 the Right Reasons** message to your employees contact **Dale Lesinski!**

Proper Footwear Fitting Guide:

- Wear socks that you plan on wearing with your footwear, while trying new ones on
- Have both feet measured - one foot may possibly be larger than the other
- Don't rely on shoe size alone - Different brand or even styles will fit differently
- Always stand and walk around in the shoes to see if they are comfortable, fit well, and don't rub anywhere
- You want room for your toes to be able to move freely as this helps circulation and flexibility
- Don't plan on shoes stretching over time. They should fit well when you buy them!

Warranty/Return Policy

Looking to Return or Exchange your footwear for whatever reason, we're here to help!

We offer **FREE** returns or exchanges up to (6) months from date of purchase.

Footwear must be NEW and have NO visible signs of wear or use.

Be 100% sure the footwear fits comfortably and properly before you wear them!

We hope that all items meet or exceed your demands for fit, quality, comfort and style!

We appreciate your business; however, we will not accept returns after shoes are soiled or show wear, other than for manufacture defects in materials and workmanship. If there is doubt about fit, quality or comfort, take the footwear home and wear them on a carpet or in a clean environment.

Regional ShoeMobile Service

Let us take you out of the Shoe Business!

(*Available Regionally)

Why DiVal Safety ShoeMobile Service:

We recognize how busy your day can be, let us take the management of your shoe program off your plate so you can focus on your other to-dos. Our Service, Top Brands, and Excellent Customized Programs... Make it easy.

It's All About Service

DiVal's Shoe Mobile service is customized to meet the needs of our customers. We will work with you to design a Safety Footwear Program That Works, and meets your needs with the highest level of service.

- Ability to Track & Determine Eligibility so you don't have to.
- Our truck will be configured to your specific needs and will be ready for your employees. (In fact, we have a 95% fill rate, which means you don't have people waiting for their shoes. Any orders not filled on the spot are shipped prepaid to the associate.)
- Prior to our visit, we send you posters announcing the date and time of the upcoming visit(s).
- Trucks are equipped to take cash, check, credit or offer payroll deduction if requested.
- We carry an ample supply ½ sizes, wide, and extra wide widths, ensuring a proper fit for your employees.
- Our employees are well-trained in properly finding the best footwear for the job.

Shoe Portal Service

One simple link for all employees - footwear.divalsafety.com

The DiVal Shoe Portal is an online shoe store custom built for your organization. Through this website your employees will be able to login to their own account and have quick and easy access to a pre selected assortment of safety footwear. Narrowed down to each departments needs. The companies stipend will be discounted from the employees order. A credit card card can be used to pay any remaining balance. Providing a simple and easy ordering process. **The site keeps track of each employees eligibility per your organizations needs taking you out of the Shoe Business!**

Committed Customer Service

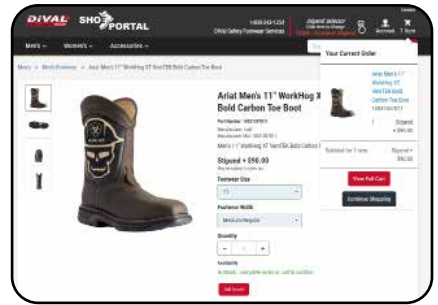

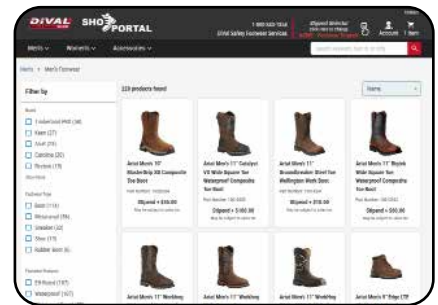

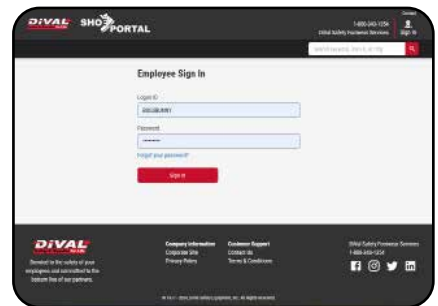

- Employees have access to our professional accountable support team.
- Employees get a confirmation email and follow up tracking information.
- Prepaid returns... We make it easy!

Reporting & Billing

- Annually, Quarterly or Monthly reporting with any specific parameters you need.
- Invoices billed to your specifications.
- All eligibility tracking is done by DiVal - Taking all of the strain of managing the shoe business out of your hands.

What's Needed to Get Started?

- Employee Roster - First & Last Name
- Employee Number - Used as the unique log-in
- Stipend / Allowance per employee
- Eligibility Requirements per employee
- Email & Phone Number per employee

Electrical Hazard: Provides a secondary source of protection when outsole accidentally comes in contact with live electrical circuits, helping to reduce the potential of electrical shock. This is measured under dry conditions and may deteriorate in wet environments and with wear.

Insulation: Thinsulation™ insulation material added to the lining of boots to help keep the feet warm in cooler weather.

Waterproof: A combination of materials designed to resist water & helps to keep the foot dry.

Security Friendly: Built with materials that should expedite trips through metal detectors and should reduce the chances of marking or scratching surfaces.

Static-Dissipative: Helps protect equipment by dissipating static electricity to the walking surfaces while providing limited protection against electrical shock.

Met Guard: Help provide extra protection over the vulnerable top of the foot. Meets US and Canadian safety standards.

Heat Resistant Outsole: rubber compound outsole helps ensure safety in hazardous, hot environments from temps above 500°F

SD10 – (1-10 megohms)
SD35 – (1-35 megaohms)
ESD – (1-100 megaohms)

Oil & Slip Resistant: Outsole is designed to provide a high level of coefficient of friction with the walking surface to improve slip resistance.

Puncture Resistant (CSA): Flexible, plate minimizes the likelihood of puncture wounds. Meets US and Canadian safety standards.

Toe Types:

Steel Toe - Made of steel and epoxy coated to resist corrosion. Thinnest toe cap used in footwear to provide protection for the toe area. Steel toes meet or exceed the ASTM FS2413 standard for protective footwear.

Alloy Toe - Made of lightweight materials like aluminum and titanium. Lightest toe cap 35% lighter than steel. Alloy toes meet or exceed the ASTM FS2413 standard for protective footwear.

Composite Toe - Made of non-ferrous elastomeric materials. Metal free (airport friendly), are 10% lighter than steel & conducts heat and cold slower than steel. Comp toes meet or exceed the ASTM FS2413 standard for protective footwear.

Carbon Toe - 100% non-metallic (airport friendly), lightweight, and unobtrusive fit, are 15% lighter than steel & conducts heat and cold slower than steel. Carbon toes meet or exceed the ASTM FS2413 standard for protective footwear.

Honey Sole Cork Insoles

- Natural cork cover wicks away sweat
- Ergonomic design provides increased stability and enhanced comfort
- Shock absorbing foam for comfort and protection from hard surfaces
- Low level arch support helps with posture, alignment and common pain
- Considered by many as the best way to comfortably wear your shoes without socks
- Designed to be trimmed and fits best after removing the manufacturer's insoles from your shoe
