The "Safe 4 the Right Reasons" message is the foundation to build a positive safety culture.

Safe 4 the Right Reasons: For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to ZERO!

Safe 4 the Right Reasons cuts to the real deal. I have worked at a bunch of places but this company just showed they care about us and our families.

For more information on bringing the **Safe 4 the Right Reasons** message to your employees contact Jill Miller!
