General Information

Whenever there's a dirty, dusty job to be done, a comfortable respirator can help to make your workers want to wear it and promote compliance as required at all times during exposure to hazardous or unhealthy conditions.

There are options to protect against airborne particles and mists that can affect your workers' health. 3M offers a wide selection of NIOSH-approved filtering facepiece respirators for numerous work-related tasks. Whether it's sweeping, sanding, grinding, sawing, bagging or welding, 3M provides a variety of innovative technologies and features – all designed to provide comfort, convenience and value.

Particulate filter types

NIOSH-approved filters are rated as N95, R95, P95, N99, R99, P99, N100, R100 or P100. The number 95, 99, or 100 (99.97%) indicates the percent NIOSH filtration efficiency

N Series

Used in particulate environments free of oil aerosols.

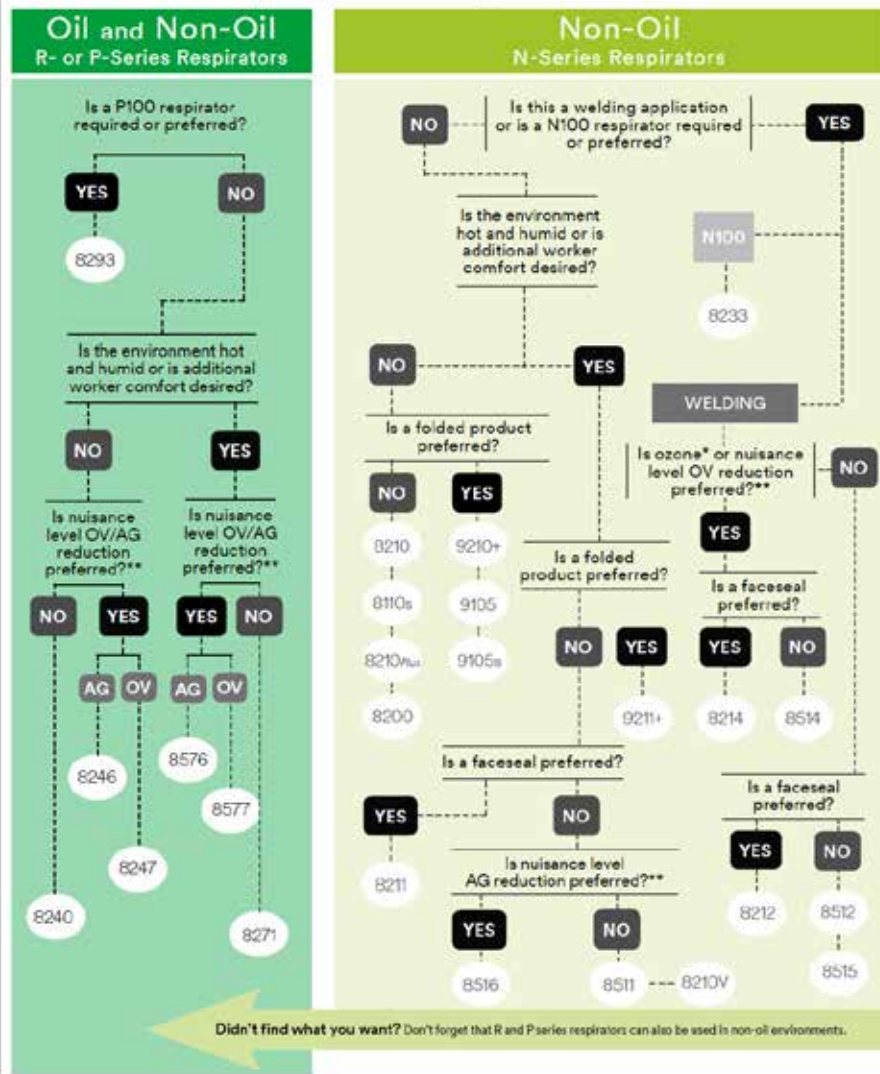

R Series

Used for Oil and non-oil particles with time use limitations specified by NIOSH

P Series

Used for oil and non-oil particles with time use limitation specified by manufacturer

THAT'S WHY WE OFFER
**RESPIRATORY
FIT TESTING**

SERVICES AND CLASSES

In accordance with OSHA 29 CFR 1910.134 requirements, DiVal Safety offers both Qualitative (QLFT) and Quantitative (QNFT) Fit testing.

Qualitative Fit Test (QLFT)

Methods include:

Irritant Smoke, Bitrex and Saccharin test agents

Quantitative Fit Test (QNFT)

Methods include:

Portacount or OHD methods

As directed by OSHA, Employers shall ensure that employees using a tight-fitting face piece respirator pass an appropriate qualitative fit test (QLFT) or quantitative fit test (QNFT). Additionally, the employer shall ensure that an employee using a tight-fitting face piece respirator is fit tested prior to initial use of the respirator, whenever a different respirator face piece (size, style, model or make) is used, and at least annually thereafter.

We also provide everything you need to ensure that your Respiratory Safety Program is in compliance – Including Air sampling, evaluating and/or updating your written program and annually required employee training.

At your place or ours, we have you covered.
