- **REDLITHIUM®:** packs provide 5X more run-time, 35% more power, and 2X longer life than standard lithium-ion packs. Superior pack construction protects against impact & vibration, water, and heat to provide the most durable pack for the harshest environments.
- **POWERSTATE™ Brushless Motor:** Delivers maximum power and provides up to 2x longer motor life. Each motor is uniquely designed for each M18 tool to deliver optimal performance. Delivers up to 4X more power vs standard brushless motors. Designed, engineered and built by Milwaukee®, POWERSTATE™ is the best-in-class brushless motor that works harder and lives longer than all leading competitors. By converting energy into power and torque more effectively, this motor has up to 4X the amount of power-generating components than competitive brushless motors. POWERSTATE™ brushless motors are ideal for professional tradesmen because they deliver more application speed, torque and durability in a smaller size.
- **REDLINK PLUS™ Intelligence:** Provides optimized performance and overload protection using total system communication between tool, battery and charger.

**The “Safe 4 the Right Reasons” message is the foundation to build a positive safety culture.**

**Safe 4 the Right Reasons:** For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to ZERO!

Safe 4 the Right Reasons cuts to the real deal. I have worked at a bunch of places but this company just showed they care about us and our families.

For more information on bringing the **Safe 4 the Right Reasons** message to your employees contact Jill Miller!

## The Torch™ SAWZALL® Blades

- Optimized tooth design providing 2X more life than our previous generation SAWZALL® blades
- Tough Neck™ ribs strengthen the blade tang and minimize breakage
- Grid Iron™ honeycomb pattern increases blade rigidity to resist blade buckling
- The Torch delivers exceptional durability and straighter cuts in pipe, conduit, strut and other metal materials
- A unique combination of relief angles forms a radius on the back of the tooth that reduces stress build-up during cutting and substantially extends blade life
- A precise manufacturing process creates a sharper cutting edge on each tooth for a faster cutting blade
