Supporting Those Who Protect Us

DiVal Safety partners with fire departments nationwide, delivering the trusted products and services first responders need to stay safe and prepared.

Our dedicated Fire & EMS team includes individuals with decades of firefighting experience. They understand the unique challenges that departments face and know exactly what it takes to be ready for any call.

When emergencies strike, you can count on DiVal. We provide 24-hour on-site SCBA fills and emergency service calls, ensuring your crews remain mission-ready whenever and wherever they're needed.

Trusted by Fire Departments Nationwide

DiVal Safety has supported critical national response efforts during some of the toughest challenges in recent history, including the WTC disaster, Hurricane Katrina, BP Oil Spill, SARS, and COVID-19 pandemic. Our track record speaks for itself—

We deliver when it matters most.

DiVal Services & Solutions

Your Partner in Fire & EMS Readiness

Full-Service Respiratory, Airline & SCBA Support

DiVal's SCBA and respiratory programs go beyond basic supply. As a 3M Scott 5-Star Service Center and ISO 9001–certified provider, our technicians deliver unmatched service, reliability, and compliance support—both on-site and at our state-of-the-art facility.

Our Services Include:

- Annual SCBA flow testing & cylinder hydrostatic testing
- Ultrasonic cleaning and certified repair services
- Rapid replacement of worn or missing parts
- Sealed return of sanitized equipment
- Qualitative & quantitative fit testing for half- and full-face respirators
- Mobile service units with 24-hour emergency response

3M **SCOTT**
Fire & Safety
Authorized Distributor

Beyond Respiratory:

Your department can also count on DiVal for:

- Custom uniforms & apparel programs
- First aid and facility safety services
- Electrical glove testing & emergency lighting
- Eyewash station services
- Vending & VMI supply solutions

Safety and Service When it Matters Most

From routine maintenance to urgent emergency response, DiVal is your trusted partner in readiness. We deliver the equipment, services, and expertise that keep Fire & EMS professionals safe—so they can focus on protecting our communities.

The Future of Firefighting

from 3M™ Scott™

3M™ Scott™ Air-Pak™ XD Wireframe SCBA

- Compliant to NFPA 1981, Standard on Open-Circuit Self-Contained Breathing Apparatus (SCBA) for Emergency Services, 2018 Edition
- Compliant to NFPA 1982, Standard on Personal Alert Safety Systems (PASS), 2018 Edition
- Removable harness allows for cleaning and decontamination
- Pressure reducer cover enables the SCBA to be machine-washed
- Rugged wireformed backframe maintains a low-profile design
- New electronics offer extended range and greater resistance to Radio Frequency (RF) interference (when configured with SEMS 3.0)
- Harness materials reduce absorption of water and chemicals
- Dual-redundant pressure reducer afford firefighters peace of mind
- Natural-Articulating Waist Pad promotes greater range of motion
- Proven regulator design offers lower breathing resistance
- Bluetooth® enabled electronics support wireless connectivity

HIGH-RUNTIME

Up to 8 Hour Runtime with a Rechargeable Battery

HIGH-RES

320x240 Sensor

HIGH-RESILIENCE

Designed to Withstand Extreme Conditions

3M™ Scott™ V320 Thermal Imager

- Today's firefighters operate in extreme conditions, where temperatures are capable of rising faster and where visibility is reduced in seconds
- Conditions within these environments can put firefighters in situations where their safety is compromised and they must have a complete understanding of the environment
- The V320, featuring a 320 x 240 sensor, and equipped with extended battery life, provides firefighters with mission critical information that enables firefighters to make better decisions in extreme conditions
- 320x240 High Resolution Sensor - Provides clear images that allow firefighters to navigate through limited-visibility conditions
- Up to eight-hour runtime with a removable rechargeable battery
- Single button ON/OFF for easy deployment. No menus required
- 3.5" High-Contrast Display - Ensures the image on the display can be seen in multiple light conditions
- Fast Startup Time - Ready for use within five seconds of activating the power button—without the use of a standby mode
- Lightweight, Durable Design - Designed to withstand extreme conditions
- Ergonomics - Designed and balanced for comfort with a gloved hand

DOES MY BOOT FIT?

Your boot size may not match your shoe size. Go for something snug, not tight, and keep in mind that most boots need to be broken in. This process should take a couple weeks, provided the boots are worn for a few hours everyday. All three sides of the boot should touch your heel. Give yourself enough room to wiggle your toes, this will help prevent blisters and calluses.

WATERPROOF

SAFETY TOE

NFPA RATED

Airpower® R2 Leather Fire Rescue Boots

- Slip resistant sole won't disintegrate from oil and chemicals
- HAIX® Secura Liner® will never pull out of the boot or wrinkle

AEROFLEX™

A NEW ERA OF TURNOUTS

Coat Features

- 2-piece collar with a snap tab, ensuring the zip-in liner hangs evenly
- OmniDex™ shoulder designed for optimal flexibility and minimal coat rise
- 9" of ease at the chest for optimum amount of air gap to maximize THL & TPP
- Breathable VaporLite™ panels running down the side seams
- AeroVent™ placed along the armpits promoting optimal cooling
- Open inspection port located along bottom hem

Pants Features

- Optimized leg opening for ease of donning and doffing boots
- VaporLite™ panels located at inner thighs and behind knees allow sweat to evaporate more efficiently
- AeroVent™ located at inner thighs, facilitating airflow and promoting optimal cooling
- 3D flex panels in the knee allow for a free range of motion with hinge points incorporated into knee padding

**Vapor-Lite™
Panels**

BREATHABILITY

Materials must allow moisture vapors to escape

SWEAT EVAPORATION

Supports core temperature regulation

WICKING

Draws sweat away from the skin and disperses it to support evaporation

COOLS THE CORE OF ANY COMPOSITE

- Breathable 3-layer composite system that targets the areas of your body where heat becomes most encapsulated: side seams, armpits, inner thighs, and behind the knees
- VaporLite™ Panels allow sweat to evaporate more efficiently, built exclusively with the TECGEN71® outer shell, CoreCXP™ 1-layer thermal liner, and your choice of either CROSSTECH® Black or STEDAIR® 4000 moisture barrier
- AeroVent™ Technology utilizes a one-way ventilation design, allowing sweat vapor to escape without letting in heat
- Vents feature particulate-blocking technology
- Activity increases air circulation within the garment

CONVECTION

Air currents carry heat away from the body

We Not Only Supply Apparel & Gear, We Can Custom Embroider & Silk Screen Them Too!

- High Quality Embroidery and Silk Screening

M18 FUEL™ 9" Cut-Off Saw w/ ONE-KEY™

- Power to cut reinforced concrete
- ONE-KEY™ Compatible: Ability to customize, track and manage tools for increased productivity and investment protection
- Onboard Water Connection: Quick Connect
- Cut Depth: 3.4"
- Blade Diameter: 9"
- Blade Arbor: 7/8"
- Load indicator light
- Weight (Bare Tool): 10.6 lbs
- RAPIDSTOP Blade Brake
- Fully adjustable guard

ITEM #	PRICE
278620	\$599.00/EA

M18 Fuel Sawzall Reciprocating Saw

- 1-1/4" stroke length
- Adjustable shoe extends the life of the blade
- Illuminates the work surface while cutting
- QUIK-LOK™ Blade Clamp for fast blade changes
- POWERSTATE™ Brushless Motor: Increased cutting speed and power through the toughest applications
- REDLINK™ Plus Intelligence
- Anti-corrosion blade clamp
- Metal reinforced battery connection

ITEM #	PRICE
282120	\$299.00/EA

M18™ Cordless 4-1/2" Cut-off / Grinder

- Milwaukee® 4-Pole Motor
- Overload Protection - Prevents damage to the tool and battery in abusive situations
- L-shape vents keep debris from entering the tool
- Tool Free, Burst Resistant Guard - Allows for quick, easy guard adjustments
- Paddle Switch Design - The only cordless cut-off/grinder in the market with a paddle switch design
- 3 - Position side handle

ITEM #	PRICE
268020	\$129.00/EA

LITHIUM-ION SOLUTIONS

From JustRite, Hazard Control Technologies, and Li-Fire

F-500 Encapsulater Agent

- Recommended for Class A, Class B (Polar + Non-polar), Class D, and Lithium-ion Battery fire hazards
- Encapsulates polar and non-polar fuels on a chemical molecular level, preventing re-ignition
- 15 year shelf life
- Does not contain any fluorinated active ingredients reportable under the Superfund Amendments, Re-authorization Act (SARA) Title III, Section 313, or Comprehensive Environmental Response Compensation Liability Act (CERCLA)
- *Geographic restrictions apply

ITEM #	CAPACITY	PRICE
F500250G	250 Gal.	\$8,195.00/EA
F500275G	275 Gal.	\$8,895.00/EA

Attacks all four legs of the Fire Tetrahedron simultaneously by separating fuel from oxygen, absorbing thermal energy up to 10x faster than plain water, and absorbing free radical energy, halting the chemical reaction that sustains flames.

The Correct Percentage of F-500 EA for all applicable Fire Types

HAZARD	EXAMPLES	RATIO TO WATER
Class A Materials	Wood, Paper, Cloth, Rubber, Dust, Etc.	0.5% - 1%
Class B Fuels (Polar)	Ethanol, E10, E85, Acetone, Etc.	3%
Class B Fuels (Non-Polar)	Gasoline, Diesel, Jet Fuel, Hydraulic Oil, Etc.	3%
Class D Metals	Magnesium, Titanium, Aluminum, Etc.	3%
Lithium-Ion Batteries	Batteries, Energy Storage Systems (ESS)	3%
Transformers	Energized Environment	3%

F500 TKO Nozzle, 1-1/2" NH-NST Fitting

- Attached 2 liter container instantly educts a proportioned amount of F-500 EA® concentrate into your water stream
- Easily adjust your stream, fog pattern, and proportioning rate with the twist of a dial
- Quickly replace bottles as needed with a standard hose connection 1-1/2" NH-NST fitting
- Zero waste solution as F-500 EA® concentrate is educted at the nozzle; not the pumper

Lithium-Ion Battery Charging Cabinet

- Ideal for charging and temporary storage of lithium-ion batteries
- 2kWh TECR maximum total capacity – includes 8-receptacle power strip
- Heat-reactive label changes colors when external temperatures reach 120° Fahrenheit
- Shelf capacity: 65 lbs of evenly distributed weight
- Cabinet Exterior Dimensions: 24-in H x 43-in W x 18-in D

Spring Loaded Dampers

Pressure Relief Vent System

Heat Activated Expanding Seals

5 Layers of Protection With ChargeGuard™

- **Layer 1: Enhanced Crossflow Fan Ventilation -**
Batteries stay cool while charging to reduce the risk of damage and fire due to overheating
- **Layer 2: Double-Walled Thermal Containment -**
Double-layer walls made of two layers of thick steel
- **Layer 3: Low-Threshold Activated Dampers -**
If cabinet temperatures reach 135F or higher, spring loaded dampers will activate
- **Layer 4: Pressure Relief System -**
Vented filtration process cools flames to stop the spread of toxic gases and flammable vapors within the cabinet
- **Layer 5: Sealed Doors -**
Reduce smoke and toxins from being released while ensuring proper flame

DESIGNED TO CONTAIN:

Explosions

Flames

Smoke
