Are You Prepared for the Unexpected?

Accidents and medical emergencies can happen anywhere, anytime. Our First Aid CPR AED class provides practical training in a supportive environment. Learn how to recognize the signs of cardiac arrest, administer CPR, use an AED, and provide crucial first aid for various situations until professional help arrives.

Gain the skills to handle common injuries, respond to breathing emergencies, and operate an automated external defibrillator (AED). Invest in peace of mind knowing your employees are ready to act when it matters most.

First Aid Training meets

OSHA Standard 29 CFR 1910.151

as well as the latest CPR and first aid guidelines.

These courses provide the vital knowledge needed to respond to a medical emergency effectively and efficiently. Our instructors teach employees how to recognize everyday medical emergencies and care for an injury or illness until professional help arrives.

Over the past 15 Years, DiVal Safety's certified instructors have certified thousands of employees.

Our dynamic instructors promote learning and retention by engaging students, no matter their learning styles.

- DiVal Safety employs NSC and HSI Certified Instructors

- DiVal is also a Member of the National Safety Council (NSC) and we are also a NSC "Training Center"

Upon successful completion of our courses, the recipients will earn a 2 year certification.

Both Agencies training meet OSHA Standard 29 CFR 1910.151, as well as the latest CPR and first aid guidelines.
